EFX-2802 Set-up:

Care & Maintenance:

Your exhibit is designed to be used indoors. If the exhibit is to be used outdoors, take care and protect it. Wind might blow it over and water will damage it. If the nap of your fabric becomes "ruffled", simply use a nylon brush to restore the ruffled area to its original smooth texture. To remove minor dirt or stains, use a damp cloth to wipe it off. Never use excess water; water will damage your display.
